

Get FreedomLINK+ with a **low monthly rate.**

## NATIONWIDE COVERAGE

FreedomLINK Plus uses nationwide networks so you get fantastic coverage without having to deploy complicated and expensive radio infrastructure.

## GPS TRACKING

Locate and track FreedomLINK Plus radios on detailed Google Maps with satellite and street views and have the ability to export historical data.

## ENCRYPTED & SECURE

Prevent casual eavesdropping and malicious interference with encryption. You can also remotely disable lost or stolen radios.

## GROUP CALLS

Never be constrained by capacity. Each radio has the ability for multiple individual channels for group calling, each capable of supporting more than 2,000 participants.

## INDIVIDUAL CALLS

Dispatchers can selectively call any FreedomLINK Plus radio for a private one-to-one conversation. Radios support dispatcher callback for larger fleets.

## ALL CALL

Anyone can change to the "All Call" channel and get that important message out, Fast... We can even setup All Call for just a few TalkGroups for supervisory monitoring management in our platform.

## EMERGENCY CALLS

Protect vulnerable lone workers with alert times the dispatcher sets, an easily accessible emergency button, and GPS positioning to allow rapid dispatcher user assistance.

## DISPATCHER SOFTWARE

Convert any Windows-based PC or laptop with internet access into a powerful command & control capability with our simple easy to use Dispatcher Software. It is full of features including GPS Tracking & Voice Messages, playback, and download.

*Interoperability with Traditional LMR Radio Systems. We offer a simple Gateway/Bridge to connect your two way radios to other radio manufactures products. In minutes, you can be setup and communicating on the same TalkGroup your current two way radio system is using.*

## PROFESSIONAL ACCESSORIES

Choose from a wide portfolio of professional quality audio accessories including surveillance, in-vehicle, and office charging systems options.
